

Dear Families!

This year we'll be using an exciting new tool to manage, assess, and motivate student independent reading. BookTaco.com is a leading online program designed to spark a love of literacy and assist in developing lifelong readers.

Each student has been assigned a Book Taco Username and Password that provides independent, 24/7 access to BookTaco.com where they will find their classroom book list(s) and the associated interactive lessons. Book Taco is COPPA compliant (Children's Online Privacy Protection Rule) and students can log into their accounts from virtually any device - desktop computers, laptop/notebook computers, tablets, and iPads - at school, at home, and on the go!

Below is your child's account information. Save this letter and keep in a safe place for future reference. Let me know if you have any questions regarding BookTaco.com and let's all work together to read more books!

Student Name: _____

Student Username: _____

Student Password: _____

Respectfully,
